Concept & pre-construction phase

A new landmark for Olongapo

The K-Square brings Korea's beauty, food, entertainment, and culture under one roof — a four-floor destination designed to anchor Magsaysay Drive. Currently in its concept and pre-construction phase, it is built on a vision shared between investors and brands ready to shape what comes next. Each floor is themed to draw foot traffic from day one and to make The K-Square the first dedicated K-culture destination in the region.
